

SUB: Open Letter from Ms. Renuka Kulkarni, Secretary FOSECA

29th October, 2016

Dear Fellow customers of Spire Edge and Spire Woods,

A little over three years ago I began my lone and solitary battle with AN Buildwell, and in the process came into contact with many of you. We all were fighting a solo battle in the beginning; and then we formed a Group; then many Groups; and many Associations. Each has succeeded in building pressure at different points of time at different places and achieved various results. Each has been accused by the other of many things, yet somehow the actions of each has been important and has directly contributed to where we are today, be it the SWBA, SWRA or the constituent Associations of FOSECA; SELFC, Block E&F, SEAA, Block A, or the action groups like the Liquidation Group, FIR Group or NRI Group.

I appeal to all Individuals regardless of affiliation or association to coordinate if you cannot unite; to allow if you cannot accept; to encourage if you cannot engage. Please! For the sake of all 1791 customers, Please!!

The time for solo and duet performances is over. The Oct 26, 2016 Hon'ble High Court hearing has created lot of traction amongst all of us. Importantly, the Hon'ble High Court has clearly said that it will take the onus of Revival, and no one needs to go anywhere else. The next date is on November 11th, for which it has ordered:

1. Promoters to show the Court the money and prove their bonafides!
2. Investors to represent their options and points before the Court.

I request all of you to please allow the Promoters the time and space to do so.

We have our own ground to cover.

FOSECA & SWBA is a bunch of eccentric people who have been working selflessly to find a way out for all aggrieved customers. They have worked tirelessly, and after hundreds of man-days of continuous effort and calling, we have been able to piece together most customer data.

Based on the gathered data, we have created a summary of your specific unit and other financial details. We will send this to you in the coming week. Please review and reconcile with your records and respond with urgency. We will need time to compile too! This will help all of us and allow the Hon'ble High Court to jump-start the process of Revival.

We may have many voices, but surely we can sing in unison.

Wishing all of you a very Happy Diwali and let us hope that we can truly find light in this fortnight. You can write to me at foseca@mail.com. Thank you all for your support and patience. Sincerely,

Renuka Kulkarni
